§16 Why do we process personal data?

1. We are the controller of your and the Insured Person's personal data within the meaning of Article 4(7) of Regulation (EU) No. 2016/679 of the European Parliament and of the Council of 27 April 2016 (hereinafter: 'Regulation'). The data shall be processed for the purposes of concluding the Agreement and providing insurance coverage. If you or the Insured Person have consented to the processing of personal data for marketing purposes or in order to receive marketing communication, the personal data controllers are entities from the LUX MED Group – their list can be found on the website www.luxmed.pl. In all matters related to the processing of personal data by us, you may contact our Data Protection Officer by writing to: daneosobowe@luxmed.pl.
2. Your personal data are provided to us at the time of conclusion of the Agreement. The Insured Persons' personal data are provided to us by submitting the Insurance Application (in the case of Co-Insured, their personal data are provided to us by the Main Insured Person). We process the Insured Persons' personal data listed in the Application, i.e. first and last name, Personal ID No. (PESEL), gender, date of birth, main place of care, address of residence. If the Insured Person is a foreign national, we also process information on the citizenship and the passport number. We may also receive the telephone number, but this information is not necessary for us to provide insurance coverage to the Insured Persons. In connection with making it possible for you to submit the Application via an electronic platform, as well as the Insured Persons reported by you to the insurance coverage accessing the insurance, we shall also process your email address and the email addresses of the Insured Persons. In order to assess the insurance risk, as part of the medical questionnaire filled in by the Insured Person, we also process personal data of the Insured Person, including age, weight, height, information about the profession or job position performed together with its characteristics, information about the Insured Person's employer, as well as information about the Insured Person's health condition within the scope resulting from the medical questionnaire. We may ask the Insured Person to provide additional information about his/her health condition or, on the basis of an authorisation granted by the Insured Person, ask the medical entities used in order to

obtain the information necessary to make a decision on the provision of the Service, its correct coordination or performing a winding-up proceedings in connection with the submitted claim. If it is necessary to obtain medical records of the Insured Person for the purposes referred to in the preceding sentence, we will request him/her to provide us with a copy of his/her medical records to the extent necessary, or on the basis of the Insured Person's consent, we shall request the relevant medical entities to provide us with such records. The consent to the processing of data for marketing purposes shall include any information you or the Insured Person have given us. These may include, for example, identification data (name, surname, gender, date of birth, age, location). However, we assure you that under no circumstances will we access the Insured Person's medical records that he/she have provided to us or that we have obtained from a medical entity under the appropriate authorisation – only authorised persons have access to this information.

3. We process your and the Insured Person's personal data as the Insurer, and the purpose of this processing is to assess the insurance risk and to execute the Agreement. First of all, we need to accept the Application. This will enable us to establish the identity of the Insured Person before the Service is provided and execute the Agreement and contact the Insured Person. As the Insurer, we are required by law to perform an insurance risk assessment prior to entering the Agreement and to process personal data as part of its execution, including for the purpose of coordinating the Insured Person's use of Services (Article 6(1)(b) of the Regulation in conjunction with Article 41(1) of the Act on Insurance Activity). As part of the insurance risk assessment, we shall process the Insured Person's personal data (including data of a special category in terms of health condition) and this shall be done by automated means, including through profiling. The legal basis for such action on the part of LMG includes the regulations governing our business activity as an insurance entity. However, we inform that the Insured Person always has the right not to accept a decision based on automated processing of personal data, and to request human intervention, which we ensure. As a data controller who is an entrepreneur, we have the right to process personal data in order to pursue claims for our business activity (Article 6(1)(b) and (f) of the Regulation, as the so-called legitimate interests of the controller, which is pursuing our claims and defending our rights). If you or the Insured Person have shared with us your opinion on the processing of personal data, or you have made a complaint, we may process personal data in order to investigate and respond to the notification (Article 6(1)(f) of the

Regulation, as the so-called legitimate interests of the controller, i.e. the processing of complaints and the defence of the Insurer's interests). As an entrepreneur, we keep accounting books and we are subject to tax obligations – e.g. we issue bills for the services we provide, which may involve the necessity to process personal data (Article 6(1)(c) of the Regulation in conjunction with Article 74(2) of the Accounting Act of 29 September 1994). If you or the Insured Person have agreed to the processing of personal data for marketing purposes, we may process personal data in order to send marketing communication regarding the LUX MED Group activities to you or the Insured Person. Such communication may include offers, information about services, events organised by the entities from the LUX MED Group, promotions and health-related articles. On the basis of the consent issued by you or the Insured Person, we may process personal data obtained in the course of our cooperation for marketing purposes, for example by analysing them and attaching them with other information about you in order to adapt communications addressed to you to your specific needs (Article 6(1)(a) of the Regulation).

4. Personal data may be transferred to the following categories of recipients in connection with our business activities:
 - a. service providers supplying us with technical and organisational solutions that enable us to render services and manage our organisation (in particular, ICT service providers, courier and postal companies);
 - b. providers of legal and advisory services and services supporting us in pursuing due claims (in particular law firms, debt collection companies);
 - c. reinsurance undertakings which shall be engaged in the reinsurance of the risk assumed by us under the Agreement;
 - d. Outpatient Clinics or Hospitals;
 - e. the Operator.

As part of the process of coordinating the provision of services, the Insured Person's medical records provided to us or obtained, on the basis of his/her consent, from the relevant medical entities, may be made available by LMG to Outpatient Clinics or Hospitals through the coordinator assigned to the Insured Person to support the process of his/her hospitalisation and treatment.

5. On account of the fact that we use services of other providers, such as ICT structure services, personal data of the Insuring Party and the Insured Persons may be transferred outside the European Economic Area (which is composed of the Member States of the European Union, Iceland, Norway and Liechtenstein). We assure that in such an event, the data shall be transferred on the basis of a relevant legal basis, e.g., an agreement concluded between

the Insurer and that entity, containing standard personal data protection clauses, adopted by the European Commission or on the basis of a decision of the European Commission stating the appropriate degree of personal data protection. The Insurer verifies whether personal data are being processed securely by the service provider to whom they are transferred.

6. One of the ways of processing personal data is through 'profiling'. This enables us to use the information we have about you or the Insured Person to create preference profiles and, on this basis, adapt our services and content you receive from us. We assure you that we do not process personal data in a fully automated manner, without human intervention.
7. We store personal data for the period of the Agreement and afterwards for 6 years after the expiry or termination of the Agreement. If we have processed data in order to pursue our claims (e.g., under debt collection proceedings), we shall process the data during the permitted period for claims in accordance with the provisions of the Civil Code. All data processed for accounting and tax purposes are processed for 5 years from the end of the calendar year in which the tax obligation arose. If you or the Insured Person consented to the processing of data for marketing purposes, we process data from the moment the consent was obtained to the moment it was withdrawn. After the expiry of these periods, the personal data are deleted or anonymised.
8. The conclusion of the Agreement with us is voluntary; however, as the Insurer we are obliged to identify the Insuring Party and the Insured Persons and carry out the insurance risk assessment with the use of personal data. Failure to provide data may result in refusal to conclude the Agreement or to provide the Services. Also for accounting and tax purposes, we have a legal obligation to process data. Failure to provide them may result, for example, in failure to issue an invoice or a personal invoice for you. Providing your or the Insured Person's telephone number to us is voluntary. The absence of such data does not affect the conclusion of the Agreement, but it will make it significantly more difficult for us to contact the eligible person in the performance of the Agreement. Granting of any of the marketing consents is also voluntary. This means that the refusal to provide them does not affect the use of our Services. You and the Insured

Person have the right to revoke the granted consent at any time.

9. As the data controller, we grant you and the Insured Person the right to access your data. You can also rectify them, request their erasure or limit their processing. You may also object to the processing of your data and to the transfer of data to another controller. In order to exercise these rights, you should contact us via the Phone Line or website, or contact our Data Protection Officer. Please also note that you and the Insured Person have the right to lodge a complaint with the authority supervising the compliance with personal data protection regulations.
